

Adding additional information tabs to your products

Etail Systems Tip Sheet

Objective: To add tabs to your product pages, to display product information.

The following tells you how to achieve this;-

Adding your tabs

Firstly, you need to find the product that you wish to edit, by going to 'Product' >> 'Product Search'.

Once you've found your product, click to edit it. You need to go into the 'Additional Info & Overrides' tab.

Type	Header	Description	Display Order	
Sub section	Product Features			Add

The options you need are under the 'Additional descriptions' heading.

You need to select the 'Sub section' dropdown under the 'Type' heading.

Under 'Header', you need to type what you want that particular tab to be called – in this case, it's 'Product Features'.

You can click 'Add' when you've entered all the information, which will save it.

You can change the 'Display Order' once you have more than one block of information in it.

Adding additional information tabs to your products

Editing: RC Helicopter - Air Discovery Additional Info & Overrides Departments Files and Flags Affiliates 18/04/2011 15:36

Additional descriptions

Type	Header	Description	Display Order	
Please select				Add
Sub section	Full description	The Discovery Store's top remote control helicopter is... RC Air Discovery (Self-named, of course.) This intelligent coaxial model has a smart alloy structure which is very strong and	1	Update Delete
Sub section	Product Features	<ul style="list-style-type: none">3 channel full function controlLED headlights & taillightsStabilising gyro	2	Update Delete
Sub section	Dimensions	Dimensions for all items are approximate 365mm x 185mm	3	Update Delete

You need to change the numerical dropdowns one at a time, then click the green update button. Click the red button if you wish to delete a tab & all of its information.

Styling the information

If you want to style any of your information, you'll see some simple HTML. This is much the same as the articles, so a more detailed look at this, please ask for the 'Adding an article' walkthrough.
